## A TIMELY WORD ABOUT CLOTHING!

Many men wait until the first whiff of Fall weather and then suddenly determine to buy heavier clothing. Where to go is the important question. The average man wants the most style and value he can get for his money, and that is where this store is so effective.

We tell the truth about our goods and have the goods that we can tell the truth about.

In addition to our clothing we are showing a swell line of Hats and Furnishings. OUR MOTTO: Not How Cheap but How Good.

Don't fail to get tickets on the Buggy to be given away.

**I. C. DAVIS, Clothing, Hats and Furnishings**

### A MODEL CITY FOUNDED BY DR. DOWIE.

History tells us of the wondrous things accomplished by leaders of armies in ancient times, of the building of forts, cities, etc., and to one that has had the privilege of seeing the grand procession of Zion's robed officers, Zion's white-robed choir, numbering several hundred, followed by the founder of Zion City, John Alexander Dowie, there cannot be anything but a great desire to know what is being done towards the building of this great city, without a saloon, a theater, a dance hall; a city where thousands live, with a court, a mayor and city council, factories employing hundreds of men and women; with hundreds of homes built over an area of some ten square miles; where no man is the owner of a parcel of ground, but must lease each lot for more than a thousand years.

As was stated in a former account, Zion City is some forty-two miles north of Chicago. It is also the same distance south of Milwaukee. The plot of land comprises an area of 6,500 acres, with a lake front of over two miles. The land is admirably adapted to the purposes of a manufacturing, commercial, educational and residential city of many thousands of inhabitants. To the east lies a broad, flat prairie extending to the lake, a mile distant, and comprises about one thousand acres. This land lies between the lake and railroad and is held for manufacturing purposes and public parks. At the present time there is in operation the Zion Lace Industries, in an immense brick building of three stories, having a floor area of over eight acres. Today there is finished product on hand amounting to over 2,500,000 yards with a value of \$250,000. For bleaching the lace, water is piped from the lake, in order that it may be perfectly pure and contain no mineral substances. A second factory, manufacturing the same product, is in contemplation and will cost \$500,000. There are other manufacturing concerns, such as a brick factory, turning out 50,000 per day; planing mill; also a sugar and confection manufactory.

After leaving the manufacturing district we strolled up Shiloh boulevard to the residence section where we found houses that would possibly exceed two hundred in number, where some five or six thousand people live. There is a \$75,000 hotel that will accommodate one thousand guests. Beyond Shiloh boulevard is a large grove of 200 acres, which is known as the Shiloh Temple site. A building is to be erected here that will seat 80,000 people within hearing of a speaker's voice. This building will take the place of a large wooden structure that is used as a temporary tabernacle, having a seating capacity of 6,000.

In the downtown district can be found a block of stores where the buying and selling is conducted by the city itself, and where no adulterated foods are allowed, no dishonestly made goods handled and where goods are lower in price than in towns of even greater size. In this section is the Administration building, which has just been completed at a cost of \$30,000, where the court, the city hall, and the bank and other public business is being cared for; and beyond this is the Educational building, being erected of cut stone at a cost of \$125,000. Zion City has now grown to such proportions that the people must have fire-protection and this they have, with three of as spirited steeds as were ever hitched to a fire fighting apparatus. The alarms are given by a complete telephone system. As for the water supply an artesian well 1025 feet deep furnished an extremely cold drink.

We have now told something of the city and will describe the land leases that run 1100 years. Every one who wishes to build a home must pay the value of the lot, for which he receives a paid-up lease, running for 1100 years, Dowie holding that a man

owning a parcel of the earth in "perpetuity" violates the divine law. The long time of leases will include the next 100 years, within which Christ, according to Dowie, is to come and reign over the whole world, and the succeeding thousand years. This method also precludes the possibility of a piece of ground being put to any use that would conflict with the laws and ordinances of the municipality. The lots are transferred only by long term lease from John Alexander Dowie, which expires January 1, A. D. 3000. In case of violation of the covenants of the lease the lessee forfeits the leasehold, and the land reverts to the lessor, John Alexander Dowie, his successors or assigns.

In speaking of the laws of the city the political side must be looked into. There is neither Republican nor Democrat party. Politically speaking, Zion City is a novelty, for there is only one party and that is known as the Theocratic party, of which the city is the headquarters of the National Committee. On Monday, March 31, 1902, Zion City was organized and incorporated under the laws of the State of Illinois and on Wednesday, April 23, 1902, Richard H. Harper was elected the first mayor.

We now have something of the government of the city. What you are allowed to do and what not, comes next. Zion City has laws the like of which are not found in any city in the world. As we go up the street we find signs reading: "Tobacco, liquor, profanity and vulgarity prohibited in this city." To find a city of 6000 people, no loafers on the corners smoking and chewing, no drugstore or doctor signs, no saloons or gambling places, no swearing (although we did hear one man, a carpenter who struck his finger with a hatchet, lay aside the law for a few moments and express himself in accordance with his feelings), is something far from the ordinary village or city.

We know of only two things in the city limits to which the revenue goes, other than Dowie, and they are the post office, railway and express receipts. The receipts for all the Zion interests are turned over to Zion City Bank. Besides this institution there are the following: Zion Land and Investment Association, Zion Lace Industries, Zion City General Stores (hardware, clothing, jewelry, groceries, meats, dairy, harness, furniture, photograph, etc.), Zion City Fresh Food Supply, Zion City Lumber Association, Zion City Power, Plumbing, Lighting and Heating Association and Zion Sugar and Confection Association. The city has leased to the railroad company twenty-one acres at \$7,500 per acre, which Dowie bought a year ago at less than \$300 per acre.

Zion City is but one of a number of cities that are to be established near the great cities of the earth, under the direction and leadership of the Messenger of God's Covenant, Elijah the Restorer, Rev. John Alexander Dowie, the General Overseer of the Christian Catholic Church of Zion. These cities will at last find their crown, capital and consummation in Zion City, at Jerusalem, the City of the Great King, which shall be the seat of the Empire of Jesus Christ the Son of God when He comes to reign as all-conquering Sovereign of the entire world.

In speaking with a prominent citizen of Chicago in regard to the means that Dowie had used to influence so many people to become interested, he says that it is by shrewdness and personal magnetism in business transactions. The party informed the writer that Dowie is without question the smoothest individual that does business in Chicago. While in the pulpit he is abusive and overbearing, yet his teachings are a genuine farce, yet he is accomplishing many wonderful things towards the building of Zion City. Time alone will determine the ultimate result.

### AN APPEAL TO PARENTS.

With many questions there are a great many differences of opinion, just so with foot ball. Yet to the average citizen we do not think that there would be more than one opinion of the sport; should they see a professional game. Last Saturday in Chicago there took place a game of foot ball between teams representing Ann Arbor, Mich., and the University of Chicago. The former is considered the champion of the western teams, yet for this it amounts to little when one sees the choice of eleven men from several thousand students, representing the most perfect type of the human being. These players were selected for their strength, weight, height, and every thing that would comprise the typical man, other than his moral qualifications, as this is not considered by colleges that uphold and encourage a game in the class with prize fights and the Mexican bull fight.

There were at this game, according to reports, 14,000 paid admissions representing the refinement and culture of the city as well as some 1200 "rooters" from Ann Arbor. The day was cold and a glance at the crowds in the boxes and bleachers showed that the women were suffering with the cold. Some were wrapped from head to foot in shawls and heavy blankets and they sat there in misery for three hours so as to show their loyalty to their college or university. They sat there with tears in their eyes to witness a brutal game or sport as mortal man will ever witness. Yet this was their duty as their college sanctioned the game and in fact gave the rooters and players several holidays in order that they might prepare for the battle. This is what is termed higher education.

To come to the game we find both teams lined up ready for the signal, and such men we never before saw. The first half lasted exactly thirty-five minutes, that is, the actual playing covered this period. What took place during the first half? Three members of the Chicago team carried from the field, with sprained arms and legs, bruised heads, and many other grave wounds. To show the inconsistency of the game, about the first thing we saw was the hospital ambulance standing at the entrance to the gridiron. Why was this here? Because our dear college presidents, professors, students and every one else who ever saw a game expected to see some one injured or possibly killed. Wherein then does the foot ball team resemble the prize fighters. At the end of the first half several swipers came on the ground with sponges, towels and massage appliances and the players were groomed according to a horseman's idea. This is exactly what takes place at a prize fight. Moreover at this game was the betting that usually takes place at prize fights. And all of it was permitted by our leading colleges.

Then there is no difference between a prize fight and a foot ball game from a moral standpoint. Some of the oaths uttered by the players and coaches before the thousands of ladies, was enough to make their cheeks blush with shame, but it was not so, they thought little of it. Why? Because their college endorsed the game and that was sufficient. The heart that beats within the foot ball enthusiast must be of stone for he is compelled to witness the suffering, bleeding victim lying on the ground writhing with pain, while a physician, who is kept in attendance, makes an immediate examination as to the extent of his injuries. He is then hurried to the hospital, and once out of sight, the crowd that saw the victim laid out has already forgotten him in his suffering.

One may hear that a game of foot ball between teams of the smaller colleges cannot be compared to the professional game. There is little difference. The game is played with the same intention; knocking out their opponent. The only difference we find is in the size of the players. The

teams that have battled on the local field are just as rough for their strength as are the teams of universities. As to the morality of the teams of different colleges we see no difference. On the local field can be heard the swearing of the different players, who in a fit of madness wish in some manner "to lay out" his opponent. We have the statement from a member of the local team that he never in his life heard as much swearing as that in a recent game, when the members were lined up for battle. And yet we have heard it said by college people that foot ball should be encouraged as it is the life of the school.

The Herald has from time to time made mention of games played here, and the writer has attended games on the local grounds but the more that is seen of it the more inconsistent it seems when we hear people oppose the prize fight. The Herald will from now on oppose all foot ball in Cedarville, and will accept no advertisements for the game. The argument of 10,000 professors and all the sporting journals in the land will never convince the Herald that it should uphold such damnable work, so long as the paper remains under the present management.

We know of several of the players on the local team that are playing against the will of their parents, yet after the game these players are given the glad hand by the foot ball cranks, professors, and fellow students who praise him for his excellent work which was possibly the cause of breaking his opponent's arm, and in this manner he is encouraged to stay in a game against the will and desire of a father and mother.

We have only two questions to ask: Is the faculty of any college justified in excusing any member of a foot ball team from classes in order that he may practice or take part in a foot ball game?

Were the members of the local team in a better condition, mentally and physically, for work and study the day after the game? It is then to the father and mother that we appeal to take the boy from the game and see that he is kept from it regardless of college influence. Persons not thoroughly acquainted with the game know nothing of the immoral influences around the members of the team when they visit other towns. Again we appeal to the mothers to see that the daughter is kept from witnessing this barbarous game. If there has ever been a game before the American people, that is degrading, vulgar, and immoral, it is the cursed game of foot ball.

### WHY THIS DISTURBANCE?

Why all this disturbance around town about a little social affair that took place in the nature of a dance? How easy it would have been for the local option people to have secured the services of two or three of Cedarville's house to house news peddlers commonly known as "gossipers" and had them call on the voters, thus securing their promise to support the cause. This is the more modern method of securing the support for a measure or of killing or boosting an affair. May the fortunate town that has no "gossipers" forever rest in that peace in which it sleeps at present. May those in the unfortunate town that have not fallen a victim to the lying tongue of the "gossiper" live in peace the rest of their days without knowing the torment the unfortunate victim must suffer outside any but the hottest place in hell. Things in the town of Cedarville in regards certain people and certain affairs have gone far enough. These persons who wish to make life miserable for those who do see a bright day or so have about accomplished their work that is in their own mind.

We do not wish to discuss whether dancing is proper or improper for it is one of those things that could be argued for ages and there still would be dancing just the same, with secret societies, card playing, etc. In the minds of a good many people the dance is an immoral pleasure which leads to ruin, but there seems to be two divisions, such as the parlor dance and the private dance in a large room or hall. Now if the latter is wrong so must be the former. Then it is admitted that some of those who attended the recent private dance in a certain hall have committed a great wrong in going to a place they should not. As many churches oppose dancing, more by custom than by law, those persons who attended this social affair knowing their obligation to the church have done wrong. Also have those persons who attended the affair against the will and desire of their parents done wrong. Now if a dance is wrong in a large room or hall it is wrong in a parlor and parents who permit it there have committed as great a wrong in allowing it as did any church member in going to the aforesaid mentioned affair. At this point we deem it proper to mention some affairs that have taken place in the past few years. The editor of a paper has many opportunities of hearing various things and consequently when a person comes along and requests that we refrain from making mention of a certain affair or events we generally grant the request. That is when the matter is of no great concern to the public at large.

There have been for the past few years a number of events at different times taking place about town and the surrounding country under the title of "spreads." The editor was approached and requested to make no mention of the affair other than under the given name, from the fact that the crowd expected to dance and play cards and this was against the principles of their church as well as those of their parents. The principle object was in keeping the nature of the affair from their parents. As said before we made no mention of the spread, dance, card game or what ever you wish to term it, and all that was ever received in return was a "Thank you" and now a cursing. Will some one please tell the public where the difference comes in between a dance in a private hall and one held in a parlor, one of literary society halls at the college, or some home in the country?

The whole matter when sifted down is this. There are several who it seems had no trouble laying aside their religious scruples and attending a dance any place where their parents would not find it out. Now comes along a dance in a private hall that is to be enjoyed by a large number of young people and these people who we refer to above not being able to

go, owing to parental objections put on a good face and start to reform the town. They claim that the dance has a demoralizing influence, the young men were scandals, half drunk, the girls who attended were anything but ladies and those visitors who were present would do or sanction anything. Oh! may the town of Cedarville have these people to whom we refer with them for many years to guard the morals of community, then when their work is completed here, if the same course has still been pursued as it is at present, according to the Good Book, there will be no question who will guard over them.

### CANCELED DATES.

According to the Dramatic Mirror this town has been blacklisted as for shows and within the past week Township Clerk Jackson has received word to cancel dates for seven shows that were to appear here during the winter. This will mean a loss of \$70 to the trustees in rents for the opera house. Last year the house rented for more than the running expenses which proved to be profitable to the board. As the trustees have been short on finances for some time, owing to the smallpox epidemic, the cancellation of these dates will mean considerable in a financial way, for the operation of the house will come higher this year than heretofore, owing to the extremely high price of coal. The only dates that are taken at present are those for the Farmer's Institute and lecture course, and the latter is given the house at a price that barely pays the operating expense. Then with such state of affairs we would suggest that the house be closed for the winter with the exception of the mentioned dates. With these two attractions the public can find enough entertainment for the winter and it might not be out of place to mention the fact that parents should accompany their sons and daughters that are under thirty years of age for it is not safe in the present day to allow a Cedarville young man to accompany a lady to any social affair or entertainment. This is given as a warning to mothers to be on the lookout for any young man that ever set foot in Cedarville. Take no chances and let us find the young ladies accompanied by their parents at the next number on the lecture course.

### AMBITIOUS YOUNG MAN.

There seems to be no question but that the young men around town have ambition and stay with a thing until they reach the front. There is one young man who left the place at about the age of fourteen and for several years battled against the ways of the world until he has at the present time placed himself in a prominent position. To whom we refer is Mr. C. A. Gowdy, General Manager of the Virginia Hotel, Chicago. We had the pleasure of taking dinner one evening recently with Mr. and Mrs. Gowdy and we find that our old-time boyhood friend is manager of a hotel ten stories in height, containing some four hundred rooms. The company operating the house has its own electric light plant, ice manufacturing and water distilling machinery on the premises, such as is found in any strictly first-class hotel. The building is a magnificent one and is owned by the McCormick estate. It is with pleasure that we refer to one who has risen from bell boy to general manager of such a hostelry.

### FOOT BALL VICTIM.

This morning's Cincinnati Enquirer gives the following dispatch from New York: "As a result of injuries received in a foot ball game at Newark, on November 9, Rudolph Klett, of the Xavier Athletic Club team, Elizabeth, N. J., is dead. He was injured internally."

### U. P. CHURCH HISTORY

BY REV. F. O. ROSS.

Besides those who are already in the ministry, there is at present one member of the congregation in preparation for that high calling, who is worthy of a place among those mentioned.

Walter Avis Condon, son of Thomas and Julia Bird Condon, was born at Cedarville, Ohio, on Feb. 2, 1879. He received his early education in the Cedarville schools and graduated from the High School in 1896. He connected with the Cedarville congregation by profession of faith in Christ on Feb. 13, 1892. He graduated from Cedarville College in June, 1900, and in September of that year entered Xenia Theological Seminary, where he is, at this present writing, pursuing his studies, being a member of the Middle class.

To this list of ministerial sons should be added that of one who, while not born or reared in the bounds of the congregation, was a member for three years previous to his entering the ministry, viz: Rev. A. R. Van Fossen. Austin Rolland Van Fossen was born June 4, 1866, at Norris-town, Ohio; was graduated at the University of Indiana in 1881; connected with the Cedarville congregation by certificate on Feb. 4, 1882. He was associate editor of The Midland in 1885-86. He studied theology at Allegheny Seminary and graduated there in 1888. He was licensed by Monongahela Presbytery on June 28, 1887, and ordained by the same, and installed pastor of Mifflin and Homestead, Allegheny Co., Pa., on June 26, 1888; was released from that charge on Sept. 28, 1890, and installed pastor of Ingram, Pa., congregation by the same presbytery on Nov. 3, 1890, and released from Ingram on June 26, 1894, when he entered the Presbyterian church. He was installed a member of Manchester Presbyterian Church, Allegheny, Pa., in Oct. 1894, where he is now located. During 1899 and the following year he edited and published a local paper called "The Messenger."

Among those who at one time were members of the congregation and who have of late years risen to prominence was a young man who taught in the Grove school of Cedarville along in the late 50s. While here he was a member of, and worshipped with the congregation. He stands higher than any living member of the congregation. We refer to Rev. Henry M. McCracken, D. D., LL. D., Chancellor of the University of New York, one of the wealthiest institutions in the country, and connected with Union Theological Seminary by an alliance by which the instruction of the faculties and the educational facilities of the two institutions are offered equally to the students of each. Besides this he is an authority on church history and has gained some notice as an author.

Since the publication of his sketch, material has come to hand from which we are able to write a more accurate and definite account of the later life of Rev. W. A. Pollock.

He united with the Fort Dodge Presbytery on entering the Presbyterian Church, and during 1882 acted as agent for the American Bible Society in Clinton and Louisa counties, Iowa. In 1884 he began work as stated supply under the Home Mission Board in Burchard, Neb. His work here did not continue long, owing to the last illness and death of his wife, which occurred on Sept. 24, 1885.

In 1886 he began work as stated supply at Axtel, Neb., and connections, and continued there for five years. In 1891 he became stated supply at Wilcoxville and Lebanon, Neb., where he remained for another five years, and was honorably retired by Hastings Presbytery in April, 1896. Since that time he has made his home at Hastings, and with his youngest daughter at Hansen, Neb. (Continued on Fourth Page.)

## FOR THE LITTLE ONES.

Instantaneous Which Proves That Animals Sometimes Cry.

Lady Burton says she has seen horses in the Syrian desert cry from thirst, a mule cry from the pain of an injured foot and camels shed tears in streams. A cow, sold by its mistress, who had tended it from birth, wept pitifully. A young soko ape used to cry from vexation if Livingstone didn't nurse it in his arms when it asked him to. Wounded apes have died crying, and apes have wept over their young ones slain by hunters. A chimpanzee trained to carry water jugs broke one and fell a-crying, which provoked sorrow, though it wouldn't mend the jug. Rats, discovering a young one drowned, have been moved to tears of grief. A giraffe which a huntsman's rifle had injured began to cry. Sea lions weep for the loss of their young. Gordon Cumming observed tears trickling from the eyes of a dying elephant. And even an orang outang, when deprived of its mango, was so vexed that it took to crying. There can be little doubt, therefore, that animals do weep from grief or pain or annoyance.

**A Gifted Colorado Boy.**  
Tom Richards, whose home is in Colorado, is receiving great honor in a foreign country. He sang at

the British embassy in Paris last June in company with Edmond de Reszke and many other celebrated artists. The boy is only twenty years old and is a thoroughly western boy, having been born in Como, Park county, Colo. He has the distinction of being the first child born there. Tom's father and mother came to America from South Wales. He is their only child, and to say that they are proud of him but poorly expresses it. For many years his home has been just outside of Colorado Springs, in a pretty little cottage in the midst of many trees. A pretty mountain stream from the Rockies rushes along beside the cottage. He received his education in the public schools and was graduated from the high school of Colorado Springs in the year 1900. His musical talent being great, his father and mother sent him to New York. He remained a year, receiving instruction in vocal music from one of the city's great teachers. From there he went to Paris. He receives three lessons a week from Siregla, a great teacher in Paris. He is also receiving instruction from Trabbello, a great Italian musician, preparatory to singing in grand opera. Trabbello has a villa in Spain. He took Tom home with him as his guest to remain during the summer vacation of two months. Tom is a German scholar and is now mastering the French language. He is a quiet boy, but easily makes friends, especially with older people.—American Boy.

## The Best Remedy For Croup.

This is the season when the weak who know the best remedies for croup are in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hives syrup and tulu, but some modern mothers say that Chamberlain's Cough Remedy is better and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by C. M. Ridgway. —From the Atchison, Kan., Daily Globe.

### Luck in Thirteen.

By sending 13 miles Wm. Sperry, of Walton Furnace, Vt., got a box of Bucklen's Arnica Salve, that wholly cured a horrible Fever Sore on his leg. Nothing else could. Positively cures Bruises, Felons, Ulcers, Eruptions, Boils, Burns, Cuts and Piles. Only 25c. Guaranteed by Ridgway & Co., druggist.

### Pins.

"There's a pin on the sidewalk," said the statistician, "but don't bother to pick it up, for 8,000,000,000 new ones will be made this year, and what's one pin among so many?" The pin, he went on, "is an interesting subject. It is older than civilization, and 3,000 years ago it was made in more beautiful form than it is today. Then only the wealthy could afford pins, but now we can all use them. This is because they are made by such an ingenious and intelligent machine. Into its mouth a coil of wire flows, and out of the other end comes the pin completed save for its plating and polishing. The plating is a mere matter of a bath, the polishing a mere matter of a dry shampoo in a barrel of revolving sawdust. Even the packing of the pins in papers is machine work. This year there are close upon fifty pin factories running busily in America, and their sales will aggregate about \$3,250,000."—Philadelphia Record.

### Wanted.

We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of Indigestion, Dyspepsia, and Liver Troubles that has not been cured—and we also mean their results, such as sour stomach, fermentation of food, habitual constipation, nervous dyspepsia, headaches, dependent feelings, sleeplessness—in fact, any trouble connected with the stomach or liver. This medicine has been sold for many years in all civilized countries, and we wish to correspond with you and send you one of our books free of cost. If you never tried August Flower, try one bottle first. We have never known of its failing. If so, something more serious is the matter with you. The 25 cent size has just been introduced this year. Regular size 75 cents. At all druggists.

G. G. GREEN, Woodbury, N. J.

### 'An Easy Proposition.

Mr. J. S. Cattanchi, the veteran veterinarian, a Scot by birth, enjoys transatlantic travel and is the life of the social hall on the big, slow steamships which he most affects. On a recent passage he offered this proposition:

Five young men went to a clubhouse to play.  
They had \$5 among them.  
They played five hours.  
They had various refreshments.  
When they came out, each one had \$5.  
After several circuits of the promenade deck Dr. Cattanchi put his head in the door and remarked, "They were musicians."—New York Times.

### Caution!

This is not a gentle word—but when you think how liable you are not to purchase for 75c the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1893 for the cure and treatment of Consumption and Throat and Lung troubles without losing its great popularity all these years you will be thankful we called your attention to Boech's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds, but for severe Coughs, Bronchitis, Croup—and especially for Consumption, where there is difficult expectation and coughing during the nights and mornings, there is nothing like German Syrup. The 25 cent size has just been introduced this year. Regular size 75 cents. At all druggists.

## Stops the Cough And Works off the Cold.

Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25 cents.

### How to Do It.

A man named Humphries in Cleveland began business with a pushcart loaded with popcorn, and now he is rich. His recipe is, "If you want to get ahead, get acquainted with your job." Volumes could say no more and can, therefore, be omitted.—Brooklyn Eagle.

### Low Rates South.

November 15th to 17th, inclusive, excursion tickets to New Orleans, La., account Annual Meeting, National Hardware Association of the United States, will be sold via Pennsylvania Lines. Ask Ticket Agents about fares, etc.

### Watch, Fresco.

A German gentleman returning from southwest Africa brought with him a tiny monkey, weighing about two pounds. From Tanga to Genoa the animal was conveyed gratis. Thence to the Swiss frontier it was charged on it as "a bird." The St. Gothard railway officials, however, viewed it as "a dog" and charged 7 shillings, while on the Eastern Swiss railway it became a mere "package" liable to eightpence. Through Baden and Wurtemberg the animal was passed free, but at Stuttgart it again became "a dog" and cost another 1s. 5d.

### Isk a Bad Cold.

If you have a bad cold you need a good reliable medicine like Chamberlain's Cough Remedy to loosen and relieve it, and to allay the irritation and inflammation of the throat and lungs. For sale by C. M. Ridgway.

### A Remarkable Blind Man.

Dennis A. Reardon is Boston's most remarkable blind man. He has been sightless for thirty years, but he is a successful architect and buys all the goods for the Perkins institute. Mr. Reardon is the architect of fifteen completed buildings designed for the Perkins institute. By passing his fingers over the tracing paper he is able to feel the lines, so sensitive is his touch, and he can tell whether the idea has been carried out as he intended. Mr. Reardon carries a watch without an crystal and is never at a loss to know the time.

### Startling, But True.

"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turner, Dempseytown, Pa., "you'd sell all you have in a day. Two weeks' use has made a new man of me." Infallible for constipation, stomach and liver troubles. 25c at Ridgway & Co.'s drug store.

### Prize Money Going A-begging.

There is about \$15,000 in the United States treasury as prize and bounty money for sailors who took part in the Manila and Santiago battles. Every penny of prize and bounty money that the courts decided was due to officers of the fleets of Dewey and Sampson has been distributed. In speaking of this matter Auditor Brown of the navy said it is undoubtedly due to the fact that the sailors do not know that the money is ready for them. Many of the tars in the two naval engagements were of foreign birth and knew nothing of the system of dividing prize money and bounties. They have since been transferred to other ships. Some have died and others have gone out of the service and into other trades.

### Thanksgiving Day Excursion.

November 26th and 28th excursion tickets will be sold at ticket stations of the Pennsylvania Lines to stations on those lines within 150 miles of selling point good-returning until November 28th, inclusive. Special rate tickets will be sold for students and instructors of colleges, seminaries and universities going home to spend Thanksgiving holiday vacation. For rates, time of trains, etc., apply to nearest Ticket Agent of the Pennsylvania Lines.

### General or Nothing.

Stories of the adventures of the Boer generals in England are multiplying. One of them is vouched for by a correspondent of the London Daily News and would lend a new point to the old phrase "at Diablos, at nullus." It is to the effect that when Mr. Chamberlain and General De Wet were introduced the colonial secretary addressed the Boer general as "Mr. De Wet." "General," corrected De Wet. Mr. Chamberlain repeated the "Mr." whereupon De Wet remarked sternly, "General or nothing!" And the colonial secretary had to follow the example of Lord Kitchener and recognize the military status of De Wet before the ubiquitous one would shake hands.

### A Startling Surprise.

Very few could believe, in looking at A. T. Howley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50 cents at Ridgway & Co.'s drug store.

## Asleep Amid Flames.

Breaking into a blazing home, some firemen lately dragged the sleeping inmates from death. Danced security, and death near. It's that way when you neglect coughs and colds. Don't do it. Dr. King's New Discovery for Consumption gives perfect protection against all Throat, Chest and Lung Troubles. Keep it near, and avoid suffering, death, and doctor's bills. A teaspoonful stops a late cough, persistent use the most stubborn. Harmless and nice tasting, it's guaranteed to satisfy by Ridgway & Co. Price 50c and \$1.00. Trial bottles free.

### Too Much For the Locusts.

Geryville, in south Algeria, was infested recently with a cloud of locusts. Gardens and plantations were covered with a fluttering gray brown pall of the destructive insects. The major in command of the garrison was seized with a heroic idea. He called out the band and directed them to play up fortissimo and march against the foe! The locusts capitulated at once. The music was too much for them, and with one accord they cleared away to a less musical neighborhood.

A few people in town have been straining every effort during the week to attract the attention of the public and thereby raise indignation over a trivial affair, and the local option movement has been laid aside, while the two Springfield brewery wagons unloaded the beer at the different soft drink houses.

Hillsboro will vote on the local option question under the Beal law, on Monday, December 1, and at present the citizens of that town are preparing for the campaign. They have secured Hon. Jesse Taylor of Jamestown as speaker for the opening meeting. Mr. Taylor is recognized as one of the best speakers on the platform, his arguments being practical and to the point. It will be remembered that he gave the opening address here during the local option campaign.

Oh, yes. This is Mrs. ...  
Is it not?

Yes, have you any more of it?  
Certainly, always keep it.  
Would you please send me down another bottle, it is fine. I do not know what other kind is like and do not care much, so long as I can get the kind you have. The price is the same isn't it?

Oh yes we have but one price to everyone.  
All right, send it right away.  
I will. Good Night.

The People's Bank of Jamestown is conducting a second corn contest and the following prizes are offered: 1st \$5, 2nd \$3, 3rd \$2, 4th and 5th each \$1. Entries must be made on or before December 3, 1902, and the awarding of prizes will take place on Dec. 20, 1902. Each six ears must be firmly tied and with the owners private mark thereon, and delivered to Hon. Jesse Taylor, cashier of the Peoples Bank, on or before the above date.

The anxiety as to the number of votes cast at the last election for Secretary of State, was eased last Wednesday morning. Now comes the question as to who will receive the largest prize and what part of the money each will get of the smaller prizes. We understand that it is already known that Morris Sharp, of Washington, C. H., and Carl Harris, of Springfield, each guessed the correct number. It is hard to tell, as there may be many others over the state who will claim a part of the first prize, \$12,000. It is stated that the Enquirer will publish the awards December 3; The vote was, according to the Secretary of State, 811,467.

## SNUFF IT OUT.

A report is current, and there seems to be good foundation for it, that a pedro and eucher club has been organized by some fifteen or twenty young men of the town. Their object is to rent one or two rooms for club purposes and meet or have the rooms open three nights in the week. On one of these nights visitors will be welcome but the other nights will be for members only.

The club expects to comfortably furnish their quarters and have as complete a line of magazines and daily papers as is found in any reading room. It is said that the club was formed for special purposes, there being no place in town other than a pool room for a young man to spend a portion of his evenings.

If the attitude of the people of this town is understood correctly it is not likely that parents will permit their sons to become a member of such a society. The effect of such societies in the cities on the young men is anything but what it should be. Card playing in a room where there are only young men will not be permitted in Cedarville.

## PUBLIC SALE.

Will sell at residence on Lee J. C. Barber farm one mile east of Cedarville on Dec. 4, at 12.30 o'clock sharp, the following property. John M. Finney, S. T. Baker, Auctioneer.

**He Didn't Wait.**

A Briton of the consequential species once descended on the British embassy at Washington demanding to see his country's representative.

"He's not in," replied Henry Labouchere, who was then an attaché. "Then I'll wait," said the Briton pompously, seating himself. At the end of half an hour came the query, "When—or—do you—er—expect Lord Lyons back?"

"Oh, in six months or so," said the ever obliging Labouchere. "He left for Europe this morning. But you said you'd wait, you know, and I did not like to contradict you."

## AN ORDINANCE.

To Amend Section XII of an Ordinance Entitled "An Ordinance Granting Permission of the Village of Cedarville, Greene County, Ohio, to The Dayton, Springfield and Urbana Electric Railway Company, and Its Successors and Assigns to Construct, Maintain and Operate a Street Railroad on Main Street in Said Village," Passed March 14, 1901, as Amended March 13, 1902.

Be it ordained by the Council of the Village of Cedarville, Greene County, Ohio, That—

Section I.—That Section XII of an ordinance entitled "An Ordinance Granting Permission of the Village of Cedarville, Greene County, Ohio, to The Dayton, Springfield and Urbana Electric Railway Company, and Its Successors and Assigns to Construct, Maintain and Operate a Street Railroad on Main Street in Said Village," Passed March 14, 1901, as amended March 13, 1902, be and the same is hereby amended so as to read as follows: Section XII.—This grant is made upon the condition that said railroad shall be completed and in operation on or before September 1st, 1903, and in the event that said railroad is not so constructed and operated then all rights under this ordinance shall be void.

Section II.—Said original Section XII of the above recited ordinance as amended March 13, 1902, is hereby repealed and this ordinance shall take effect and be in force from and after its passage and legal publication provided said Company, its successors or assigns, shall within thirty days from the passage hereof file with the Clerk of said Village an acceptance in writing of this ordinance.

Passed Nov. 18, 1902.

D. H. McFARLAND, Mayor.

Attest:

JOHN G. MCCONKELL, Corp. Clerk.

## Carried Away.

One of King Edward's ships recently collided with another while clearing out of Portsmouth docks and had its bowsprit carried away.

According to the Tatler, the captain promptly reported the disaster to the admiralty in a dispatch as follows: "My lords, I regret to have to inform your lordships that his majesty's ship —, while leaving the harbor, came into collision with another vessel, and its bowsprit has been carried away."

Promptly came an admiralty wire in reply, "Report what carried away bowsprit and where it has been placed."

## A Desert Lighthouse.

There is at least one lighthouse in the world that is not placed on any mariner's chart. It is away out on the Arizona desert and marks the spot where a well supplies pure, fresh water to travelers. It is the only place where water may be had for forty-five miles to the eastward and for at least thirty miles in any other direction. The "house" consists of a tall cottonwood pole, to the top of which a lantern is hoisted every night. The light can be seen for miles across the plain in every direction.

## What Did She Hold?

Discussion of the Venus of Milo and her long lost arms is still continuing, but no amount of polemics seems likely to lead to the restoration of the statue. Did the Venus originally hold an apple? Did she hold anything? What did she hold? The question is still unanswered, unless we are to accept the notion of a Belgian artist, who has thought fit to make a replica of the masterpiece in which the goddess holds the arms of Belgium!

## Russell Sage's Guards.

One of Russell Sage's neighbors stopped in the financier's house one morning during his recent illness and asked, "How is Mr. Sage today?" "Doing very well, thank you," was the response. "He is now attended by only one doctor, but we have increased the guards to four." "Guards! What are they needed for?" "To prevent his slipping away to his office."

## THE RUMMAGE SALE.

There is a serious disposition on the part of many sensible people, including medical men, to make a public war on the rummage sale. It is claimed that it is a menace to health and a conveyor of contagious diseases. Last winter, says the New York Evening Post, several of these sales were held in Rochester and were followed by a large number of cases of contagious diseases among children. Some of these, it is said, were traced to their source and were found to have been transmitted directly from garments purchased at a sale. The truth is that a more sanitary device was never imagined. The stuff sent to the average rummage sale is usually rubbish, much of it having been resurrected from trash heaps or unused closets, and is of no real use to any one. The danger of lurking germs is very real, and it seems almost criminally reckless to expose innocent children to it. Women have become so sensible in their practice of good works that the rummage sale appears like an anachronism!

## Knew There Had Been No Fighting.

General Benjamin F. Tracy went to the civil war as colonel of the One Hundred and Ninth New York, which was organized in his home county, Tioga. In these days of peace and plenty he spends his summers near Owego, and there it was a few weeks ago that an old army friend revived this story:

A month after the regiment marched away the news of the great battle in which the One Hundred and Ninth was engaged spread through Tioga county. No one knew the details, but the report was generally believed—by all, in fact, except General Tracy's small daughter.

"There has been no big fight," she stoutly maintained.

"And why are you so certain?" asked a friend.

"I just know there has not been any because my father promised me to come home before the big battles, and he is still at the war."—New York Tribune.

## Well Seasoned News.

A writer in the Boston Transcript says that "far up in the icy northern wastes of Canada we have heard there lives an official of the Hudson Bay company to whom but once a year mail and provisions come. He is an ardent reader of the London Times, receiving with each annual arrival of the modern Mayflower a complete edition of a year. Each morning he unfolds at breakfast a copy of the Times, just one year old upon that date. For him the Boer war has not yet closed, for him the Lusitania and the Kaiser Wilhelm's docking months ago are not yet in. We are writing him this morning asking if he has ever considered taking boarders."

## Planned Professor.

According to Professor Baldwin Spencer of Melbourne university, the blacks of central Australia are free from one "white man's burden." He spent several years making ethnological investigations among them, and one of his discoveries was that a mother-in-law was not allowed to come within a mile of the "mia-mia" (hut) of her married daughter. If she did so, the husband was authorized by the tribal law to use his club. The professor expresses admiration of this drastic method of preserving domestic peace and tranquillity.—London Express.

## Spencer is Probably Right.

Herbert Spencer is quoted as saying that he has no illusions as to the popularity of philosophy. "I think it probable that if you would ask ninety-nine out of a hundred people whether they would daily take a spoonful of cod liver oil or read a chapter of my 'Principles of Psychology' they would prefer the cod liver oil," he said. The philosopher has again declared that he is broken by the burden of years and has laid his pen down forever as far as any large work is concerned.
